State the numbers (which are damaged) and extent of damages of:
1. load-bearing columns and beams

2. slabs

3. non-load bearing walls
4. non-load and load-bearing walls of outside decorative columns
5. windows and doors

Also state the extent of the damages of:

1. electrical and mechanical works

2. water supply net-work

3. sewage network and sewerage substations if any.
4. water tanks

As there are two buildings, specify in which of them the damages

If a sketch of the building with the measurements is sent ,it will be nice.
